Truck 'N Revolution™ SPECIFICATIONS

Weight

TNR 18, #832030 6,300 lbs. (2858 kg)
 TNR 20, #832075 6,900 lbs. (3130 kg)
 TNR 22, #832120 7,600 lbs. (3447 kg)

Length

TNR 18 18' (5.5m)
with towers extended 22' 8" (6.9m)
 TNR 20 20" (6.12m)
with towers extended 24' 8" (7.55m)
 TNR 22 22" (6.73m)
with towers extended 26' 8" (8.16m)

Width

TRN 18, TRN 20, TRN 22 86" (2.19m)
with towers extended 142" (3.62m)

Height

TRN 18, TRN 20, TRN 22 7' 3" (2.22m)
with Tower Extension 9' 3" (2.83m)

Misc.

Treadway Width 27" (.69m)
 Working Height 27" (.69m)
FLOOR TO TOP OF BED
 Hydraulic Power 10 Tons Per Tower
 Lifting Capacity 15-Ton Ram on Lift
 Hydraulics Air-100PSI
Electric Option 1 1/2 HP, 110V or 220V

D.T.A. Revolution Extreme™ SPECIFICATIONS

Weight

DTA 18, #832060 8,900 lbs. (4037 kg)
 DTA 20, #832105 9,700 lbs. (4400 kg)
 DTA 22, #832150 10,500 lbs. (4763 kg)

Length

DTA 18 18' (5.5m)
with towers extended 22' 8" (6.9m)
 DTA 20 20" (6.12m)
with towers extended 24' 8" (7.55m)
 DTA 22 22" (6.73m)
with towers extended 26' 8" (8.16m)

Width

TRN 18, TRN 20, TRN 22 86" (2.19m)
with towers extended 142" (3.62m)

Misc.

Treadway Width 27" (.69m)
 Working Height 16 1/2"-40" (.42m-1.016m)
WORKING HEIGHT VARIES
 Hydraulic Power 10 Tons Per Tower
 Lifting Capacity 10,000 lbs.
 Hydraulics Air-100PSI
 Electric3 HP for lift

Measuring

Mo-Pro Gauge Package

Universal Tram Gauge, Deluxe Centerline Gauges, Strut Tower Alignment Gauge, and display board with hardware. #311525 (96#)

Universal Tram

Vital for determining collision damage and for checking measurements during repair. Makes it easy to establish dimensions around components and to compare measurements from one side of the vehicle to the other. Measures in metric. Includes bubble level for accuracy. #311485 (15#)

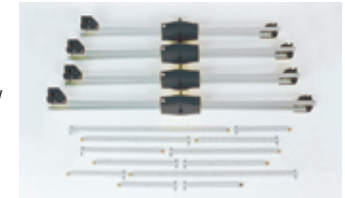

Mitchell CD-Rom

Includes 10 years of Data on upper and lower body import and domestic cars, trucks and SUVs. One-year subscription. #394100

Deluxe Centerline Gauges

Reliably and accurately measures automatic centerline of all vehicles. Mounts quickly with magnets for universal applications. Recessed metric tapes are easily read and are durable. Compatible with all data books. Made of rugged, light-weight cast aluminum. Also includes (4) 8" (203mm) scales, (4) 12" (305mm) scales, (2) 16" (406mm) scales, (2) 24" (610 mm) scales and an instruction manual. #311515 (25)

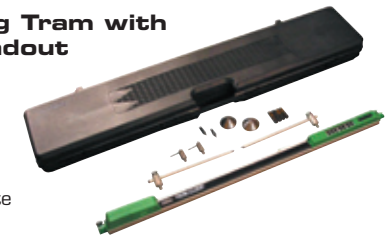

Strut Tower Alignment Gauge

Used with the centerline gauges, the strut tower gauge measures strut tower height at both forward and aft locations, determines centerline and locates lower control arm centerline position. Measures in metric. #311520 (13#)

Telescoping Tram with Digital Readout

This new TRAM gauge from Mo-Clamp has all the features you need for quick and accurate measurements. #311505

- Leveling bubble for readability
- Digital readout
- Precision construction for ease of use and durability
- 10-Measurement memory function
